Refurbished Barton Meters**The Gas Grabber**

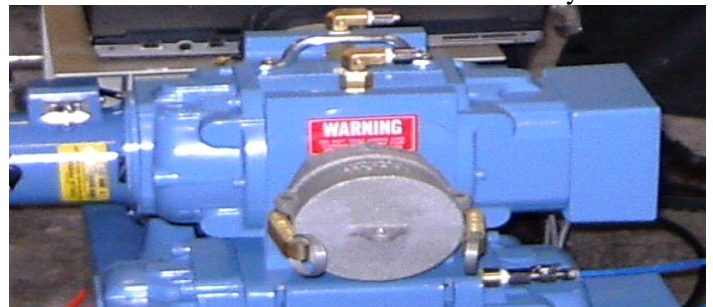

January 30, 2009

Transfer Prover Delivery

In January 2009, R.L. Laughlin took delivery of the Dresser/ROOTS Proving System Model 5 2M/10M. On January 19th factory supervised training was conducted at the companies facilities in Charleston, WV. Ron Walker representing Dresser and Bill Worster with the Crocker Company conducted the seminar. Collectively there was more than 250 years of gas measurement experience in attendance and it was an informative gathering.

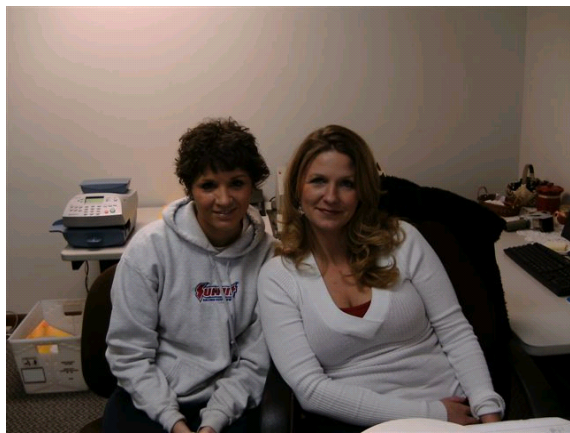

The Model 5 portable transfer prover is an integrated computer controlled system for verification and testing of rotary, turbine and diaphragm meters. The technicians are looking forward to bringing the new equipment into the field and serve the natural gas industry.

The R.L. Laughlin Company Inc. is ready for the future. Innovations in electronic chart processing and state of the art field services. Call today!
